

nl/rokko

Members

Formed on 2022 by the team of ROKKONOMAD (primarily lead by Hiroaki Koizumi and Lok Jansen)

Projects:

2022 September 1st to December 25th NL/ROKKO Life after post-capitalist era

2023 August 26th to November 23rd NL/ROKKO What is growth?

Project descriptions:

nl/rokko project is a research group formed by the team members of ROKKONOMAD to explore "the future of work". In cooperation with the Netherlands Embassy in Japan, we are one of the members of the "nl/local project - Creating our future with the Netherlands", a project that connects the Netherlands and Japan and challenges social issues. In the fall of 2022, we held a ZINE WALK, walking around Mt. Rokko to think about the four themes of "Why people work", "From hierarchical organization to circular organization", "From linear economy to circular economy", and "Can modern people have commons?".
