Resilience Beyond 3.11: The Art of Gratitude from Miyagi

Introductory Message

We experienced the Great East Japan Earthquake (3.11) firsthand. Since that day, every step we have taken on our path to recovery has been possible only through the warm support and solidarity from people all over the world.

This document is more than just a portfolio; it is the story of our journey to transform the immense energy we received into art, and to return that light to the global community. We invite you to explore the "Present" of our revitalized hometown through our work.
